

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

PUBLIC NOTICE

September 24, 2019

TO: Parents or guardians of children enrolled at the following school(s):

St. Catherine of Siena School

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #30093 for the following source(s) of air pollution:

Portable Soil Vapor Extraction System

Well Test, Inc

1319 Howard Avenue

Burlingame, CA 94010

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Well Test, Inc has applied for a Permit to Operate a Portable Soil Vapor Extraction System to remedy an existing contamination problem. Dry cleaning operations were conducted at the site and the soil and groundwater were contaminated by chlorinated volatile organic compounds. RRM, Inc, on behalf of Well Test, Inc, has proposed a system consisting of a vacuum blower

to extract organics vapor from wells drilled at the site. Treatment of the extracted vapor will be accomplished by Carbon Adsorption.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

ADDITIONAL INFORMATION

If you are interested in getting more information, you may request copies of the District's evaluation report by calling the District at the telephone number listed at the end of this notice. This information is also accessible on the District website at:
